Explanation of Product Validity Extension

The statement about the extension of validity period of urine products of RAPID SELF TEST is as follows :

- a. During the design and development of the product, the time of the stability test is 39 months. It is confirmed that the product can guarantee 36 months validity.
- b. The semi-finished products are valid for 12 months within the company.
- c. The data submitted to FDA showed that the stability of the finished product was 24 months.

Therefore, the actual stability period can be determined according to the production date of semi-finished products for customers.

- 1. D20230701 MD-U54, Specific corresponding to semi-finished products:

Semi-finished products	Lot Number	Date of Manufacturer
COC-U51	DK0400446	2023/04
OPI-U51	DK0600167	2023/06
MET-U51	DK0600037	2023/06
THC-U51	DK0600181	2023/06

The extendable validity period is calculated according to the 36 validity periods of the earliest components :

D20230701 MD-U54 Can be extended to 2026-03

Note: we will not be responsible for any non-product stability problems caused by the inconsistency between the extended validity period of finished products and the data submitted by FDA.

Regards,

Rapid Self Test Inc.
